Worthy of Merit. Among the many remedies offered to the public under he head of Patent Medicines, it is a relief to know that some of them are valuable preparations—will do what is claimed for them—and are worthy of use and a place in every family. Belonging to this class may be mentioned or Roback's Scandinavian Remedles—Blood Purifier and Blood Pills—which are most excellent preparations, and have the desired effect in all cases for which their use is intended. Like thousands of others, we bear personal witness to this, having used them in our family with the est effects. We are also acquainted with many who speak coluntarily in praise of these medicines. One of our leading business men says that by the use only four bottles of Purifier he received more than one undred dollars worth of benefit. His difficulty was Dyspepsia. We express our thanks for a liberal present of these remedies for use in our family.

DR. RALPHGRAME

MEMBER OF THE ROYAL COLLEGE OF PHYSICIANS, ENGLAND. GRADUATE OF RICORD'S FRENCH Hospital for Private Female Diseases, and Student of the celebrated Churchill, for the treatment of Lung Diseases, and for the treatment of Lung Diseases, and for the past ten years a constant attendant of the Oriental Hospital

INDIANAPOLIS, INDIANA, TILL THE FIRST OF SEPTEMBER, 1861. AT LITTLES HOTEL,

Where he will be happy to meet all those afflicted withany kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cared, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to disc.

given up by other practitioners to die. The idea that consumption is necess The idea that consumption is necessarily fatal has destroyed more human life than the disease itself. For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only ossible plan to ascertain the true cause of disease. The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its rue cause. He has no puffed nostrums that will cure all diseases. The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity. Seminal Weakness and Spermatorrhora. It is a melancholy fact that thousands who are suffering underpale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease institutions weeked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The guly escape is found in prompt and proper medical treatment. The earlier this is sought the easier the care. Generally the first symptoms in males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and hectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian Herb Doctor and his new method of cure. He uses an instrument that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an honest, candid and true statement of their case, and the possibility of his giving them relief—gratis. Seminal Weakness and Spermatorchors. It is a melancholy fact that thousands who are suffering undernale and

his giving them relief—gratis.

The Doctor permanently cures the Piles, and defies the world to compete with him on Female Complaints.

The Dr. challenges the whole Medical Faculty for the treatment of Lung, Liver, Kidney Diseases and Dyspepsia.

PHŒVIX BTITERS. PATHESE MEDICINES HAVE NOW BEEN BELORE wanted by those who suffer from Strumerous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted tolthe public for a period of thirty years, and during that time have maintained a high character in altino of immetise service to this large class of our afflicted iellow-citizens. How completely this compound will do it
has been proven by experiment on many of the worst
cases to be found of the following complaints

Serofula and Serofulous Complaints

Eruptive Diseases, Cleers, Pimples, Blotches, Tumo Salt Rheum, Scaid Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Doulou eux, Debility, Dyspepsia and Indigestion, Erystopelas Rose or St. Anthony's Fire, and indeed the whole class complaints arising from Impurity of the Blood.

This compound will be found a great promoter of kealth, when taken in the Spring, to expell the foul humors which fester in the blood at that season of the year. B, the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul erupotins and ulceroan sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alternative medicine. Cleanse out the vitiated blood whenever this through the natural channels of the body by an alternative medicine. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life DROPSIES of all kinds by freeing and strengthening the is disordered or overthrown.

Sarsaparil a has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously decoived by preparations of it; partly because the drug alone has not all the virtue that inclaimed for it, but more because many preparations, pretending to be considered.

Also, WORMS, by dislodging from the turning of the bowels the slimy matter to which these creatures adhere SCURVY, ULCERS and INVETERINTE SORES, by the perfect purity which these Life Mediches give the bli Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence,

The use of these Pills for a very short time will effect

the sick, for they not only contain little, if any, Sarssparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue such a name from the load of obloquy which rests areas it. And we think we have ground for the lafe Medicines alone. which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. "Brown's Bronchial Troches," containing demulcest ingredients allay Pulmonary and Bronchial Irritation. A NAPERIENT AND STOMACHIC PREPARATION OF Iron, purified of Oxygen and Carbon by combestion of Hydrogen sanctioned by the highest medicinal authorities, both in Europe and the United States, and pre-

The experience of thousands daily proves that no prearation of Iron can be compared with it. Impurities of the
blood, depression of vital energy, pale and otherwise
sickly complexions indicate its necessity in almost every
conceivable case. Innexious in all maladies in which it
has been tried, it has proved absolutely curative in each
of the following complaints, viz: BROWN'S "That trouble in my Throat, (for which the "Troches" are a specific) having TROCHES, made me often a mere whisperer." In Debility, Nerrous Affections, Emociation, Dyspepsia, Constipution, Diarrhea, Dysentery, Incipient

In cases of General Debility, whether the result of acuie diseases or of the continued diminution of pervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description or written attestation would render credible.

Invalids so long bed-ridden as to have very nearly become entirely forgotten in their own neighborhoods, have "I have proved them excellent for come entirely forgotten in their own neighborhoods, suddenly re-appeared in the busy world, as if just rei m protracted travel in a distant land nal instances of this kind are attested of female suffere

nal instances of this kind are attested of female sufferers, emaciated victims of apparent maramus, sanguineous exhaustion, critical changes, and their complication of nervous and dyspeptic aversion to air and exercises for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tenic, without being exciting or over-heating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them. orms them. in Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant costiveness. In unchecked Diarrhea, even when advanced to Dysep-

tary, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astenishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent heetic, which generally indicates incipient consumption, this remedy has allayed the alarm of friends and physicians in several very gratifying and interesting instances. in Scrofulous Tuberculoris, this medicated iron has had far more than the good effect of the most cautiously bal-anced preparation of Iodine, without any of their well-known habilities.

The attention of females can not be too confidently invited to this remedy and restorative, in the case peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follows:
